Fire & Vine Hospitality's core company values include:

- **Individual Responsibility:** We believe that individuals are responsible for their lives. The freedom that comes with knowing that your future is in your control is one of the greatest truths we know. Doing what you say without any follow up is one of our values. We all have responsibility for ourselves, the attitudes we enter the doors with and the way we treat others.

- **Heritage of Hospitality:** Our profession is built on the heritage of hospitality giants that have come before us. We have brought forward techniques, traditions and an approach that celebrates our heritage while updating it for modern times.
- **Professional:** Our company was founded by professionals who saw this as a way of life where you could be proud of what you do. To profess is to love what you do. Professionals also take responsibility for their knowledge and continuing education. They are treated with respect by their peers and their opinions matter to all those involved in leading them.
- **Action Oriented:** We take action to move our restaurants forward. A fundamental strength of our business over well-funded national competitors is our ability to make a decision and move forward. Our action orientation is a distinct competitive advantage. If something is not working, fix it by taking action.
- **Stewardship:** Stewardship is the 'careful and responsible management of something entrusted to one's care.' In that regard, we are all stewards of our restaurants which include guests, employees, suppliers and the assets we maintain.
- **Building Strong Community:** Our restaurants forge a strong bond with our communities by being generous in our fundraising for local charities as well as giving our time and energy to building better communities. Our restaurants are a place of celebration and a gathering place for the entire community.
- **Free Enterprise:** We have a fundamental belief in the power of the free enterprise system. This allows us to elevate the capabilities of our people. We celebrate the success of businesses and the entrepreneurs who drive them. We relish competition and protect our ability to compete without using the government to protect us.

COMMUNITY INVOLVEMENT

Our properties forge a strong bond with our communities by being generous in our fundraising for local charities, as well as giving our employees opportunities to share their time and energy to building better communities. We strongly feel that each of us has an obligation to help make our world a better place, and we are privileged to serve and give back to organizations who are focused on that mission.

Charity Match and Gridiron Society Program

Fire & Vine Hospitality provides two options for non-profit organizations to take advantage of the company's generous financial giving programs, through the Building Community charity match program and the top tier of the company's [Revelers Club](#) loyalty program, called the Gridiron Society.

- Building Community Charity Match: The donor-aided matching program matches the value of each gift card purchased at full value. For example, the purchase a \$100 gift card for a charitable cause is matched and results in a \$200 gift card for that organization's fundraising efforts.
- Revelers Club Gridiron Society: Gridiron Society members can annually donate a Chef's Wine Dinner for four at any of the company's restaurants to the charity of their choice.

Fire & Vine Hospitality Scholarship at Washington State University

In 2021, Fire & Vine Hospitality created [an annual scholarship](#) that comes from the donated revenues from all their establishments on Juneteenth, an annual holiday on June 19 commemorating the end of slavery in the United States. The initial gift of \$70,000 came from the proceeds from June 19, 2020. The company supports the cause of equal opportunity and is dedicated to expressing that in their relationships with guests, the community, and one another. The annual scholarship is within the Washington State University Carson College of Business and in its first year, awarded seven \$10,000 scholarships to incoming first-year students or freshmen with a declared interest in hospitality business management or wine and beverage business management. Preference is given to BIPOC and underrepresented students.

In-kind Giving to Mary's Place, Jubilee Reach and others.

The Fire & Vine Hospitality team values deep relationships with organizations serving each of their local communities. While the pandemic largely limited in-person events, the company was able to continue to support organizations including Mary's Place and Jubilee Reach by providing auction items and other in-kind donations for their virtual galas.

Through financial giving, time and resources, El Gaucho Hospitality has donated more than \$5,000,000 since 1996. Fire & Vine Hospitality is consistently recognized in Puget Sound Business Journal's list of top philanthropic organizations.
